

Michael James Roach

**I'VE GOT SOME THORNLESS BLACKBERRIES
YOU TALK ABOUT PRODUCING BERRIES
THEY'RE EVERYWHERE
THEY GROW PRETTY DOWN HERE**

It was the wig.
Probably that cat again.
I just thought it was amazing.
You having another back spasm?
I heard myself there for a minute.
That sounds like me when I try to move.
Don't make us sit here and wonder.

Next time I'll probably wind up in jail.
It was a damn woman at that.
Last time she called security on me
they sent a boy to get me out.

I told them
son I'm hurting real bad
best thing for you to do is go the hell
away and let me die now.
I'm trying to get there.

At least I know you're still alive;
makes me worry every time you get like that.
Those suckers can hurt.
You can be sitting still or you can be staying up
but all of a sudden you get dizzy
and just fall over
or you'll pass out from it.
I don't know how I hurt it.
You use the centre of the head as the dolphin-fin
but he only did it in black
so it's just the outline of the dolphin
but that would be so pretty coloured in.
I just don't know if I could take all that pain
especially in that spot.

You fall cramps
so bad you went onto the floor.
Doctor says I have amnesia.
And I am sitting in a swivel chair
I swivelled around to get my walking stick
to go to the refrigerator to get
another bottle of water
I guess by turning around that way
I got dizzy and
I just fell on the floor.
It kills me getting up with only one kneecap
I put both knees on the floor.

You're not in any pain, she says.
You're just doing this to feed your addiction
I told her you stupid bitch.
I said I've got the pills at home.

I will not go to the Laundromat and I will not have
my laundry done by a stranger.
The last time I went to the Laundromat
they started to call security on me
and I threatened to smash the windows
before they could get back there
and I'm not going up there cos I'm bored.
I hit that right hip again.
Every time you fall
it's always the same place that hurts the most.
I wish I had that figured out cos the hip
I fell on is the one with the injection patch.
I said if I'm wanting to get high off something
all I have to do is snort a hotdog.

It's alright, I'm not really here.
I need to put some passionfruit vines in my backyard.
I know where some wild ones grow.
I need to go pick some up.
I was just gonna tell her she's not too old cos I know
she's old enough to be able to go to school by herself
but young enough not to want to
