WHO'S AFRAID OF LES MURRAY

Let's face it
multiculturalism is for the ethnics
not for the likes of you

who do not know a word of the foreign languages
who do not write a word for the other
who do not have a word that can be put across

you are out in this new edition of multicultural australia
you are down with the onslaught of this new kind of english
that you can't judge with your dating authority

you can be your own editor
and edit yourself in and out of history
to stand in a world that no-one cares to read

just listen to this single person here
powerless against the likes of you
speaking in a multicultural voice:

who's afraid of les murray?
